PROFILE

Frontend Developer specializing in React.js and Next.js, experienced in building scalable, high-performance web applications. Skilled in component-based architecture, RESTful API integration, and performance optimization using lazy loading, code splitting, and efficient state management. Proficient in implementing secure authentication (JWT) and encryption (AES, RSA), with a strong focus on responsive, cross-browser compatible, production-ready applications and optimized user experience.

PROJECTS

Secure File Storage System Website [🔗](#)

React.js, Node.js, MongoDB, AES, RSA, JWT, bcrypt

- Architected a secure file storage platform using AES encryption and RSA key exchange to ensure end-to-end data protection.
- Implemented hybrid encryption using AES for file encryption and RSA for secure key management.
- Engineered JWT-based authentication with bcrypt hashing and role-based access control, strengthening application security.
- Designed encrypted storage workflows and access control mechanisms to prevent unauthorized data access

Restaurant Automation Website [🔗](#)

React.js, JavaScript, CSS, Node.js

- Developed a mobile-first, responsive frontend using React.js, ensuring seamless user experience across devices.
- Engineered reusable React components and optimized state management, improving UI scalability .
- Enhanced application performance by 20% through lazy loading, efficient state management, and optimized rendering.

Jewellery E-Commerce Website

React.js, Tailwind CSS, JavaScript, UI Design

- Built a responsive e-commerce frontend with dynamic product listings and structured UI components.
- Optimized rendering performance to deliver a smooth and efficient user experience.
- Designed mobile-first layouts using Tailwind CSS, ensuring cross-device compatibility.

WORK EXPERIENCE

Frontend Developer Intern

Graphura India Pvt. Ltd. [🔗](#) | Remote, India

Oct 2025 - Jan 2026

- Engineered scalable, reusable React components with responsive design, improving cross-device compatibility
- Integrated and optimized RESTful APIs to enable seamless data flow and improve application responsiveness.
- Delivered maintainable, production-ready frontend code following industry best practices.

AI Web Developer Intern

Infosys Springboard Pvt. Ltd. [🔗](#) | Remote, India

Nov 2025 – Jan 2026

- Developed an AI-based assistive mobility solution for visually impaired users using computer vision
- Implemented machine learning models for real-time object detection and navigation support
- Optimized model performance through data preprocessing and parameter tuning
- Utilized Python and AI frameworks for model development and deployment
- Improved model efficiency and response time through performance optimization techniques

EDUCATION

2024 – 2026

(Pursuing)

Master's of Computer Applications

Lovely Professional University, Phagwara, Punjab

2021 – 2024

Bachelor's of Computer Applications

Chhatrapati Shahu Ji Maharaj University, Kanpur

SKILLS

Technical Skills

Programming languages: C, C++, Python, JavaScript (ES6+), TypeScript
Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, MongoDB, Postman
Concepts: REST APIs, Authentication (JWT), Encryption (AES, RSA), State Management, Responsive Design
Database: MongoDB, Supabase
Tools: Git, GitHub, VS Code, Figma, Vercel, Compass

Soft Skills

Communication, Problem-Solving, Collaboration, Time Management, Attention to Detail, Adaptability, Quick Learning

KEY ACHIEVEMENTS

- Developed and deployed **3+ full-stack and frontend applications** using React.js and modern web technologies
- Improved application performance by **up to 20%** using optimization techniques like lazy loading and efficient state management
- Implemented **secure authentication and encryption systems**, ensuring data protection and access control
